Technical Information

Product Code C007

## CITROSOLV

CITROSOLV is a non-emulsifiable, non-foaming solvent degreaser, ideal for cleaning ferrous and non-ferrous metal components. May be used in cold immersion cleaning tanks, in hot or cold spray washing equipment, or for cleaning by low pressure spray, brushing or by hand.

CITROSOLV does not contain chlorinated solvents or aromatic hydrocarbons and is a suitable alternative for those applications where such solvents may not be used.

### SAFETY SOLVENT

**HIGH FLASH POINT (>46°C)**

**NEGLIGIBLE RESIDUAL DEPOSITS**

**HIGH SOLVENT POWER**

### DIRECTIONS FOR USE

**SPRAY WASHING EQUIPMENT** – Use 10% CITROSOLV in water in the spray wash tank and operate the equipment in the usual manner. When ‘forced drying’ is used, take adequate fire precautions, particularly if operating above the flash point of CITROSOLV. An addition of a corrosion inhibitor will prevent corrosion of ferrous metals

**DIPPING, BRUSHING, WIPING OR LOW PRESSURE SPRAY** – Avoid transfer of contamination by using clean rags etc, and frequently replace contaminated CITROSOLV.

12/13 SP
