Technical Information

Product Code Q003

STRIPGEL

STRIPGEL is a viscous brushable paint and graffiti remover. It does not contain methanol, methylene chloride or chlorinated solvents and is water rinseable and non flammable.

DIRECTIONS FOR USE

Always test a small area to assess both the substrate and coatings suitability. Safe on masonry but may damage the surface of some woods and metals. Do not use on aluminium or zinc coatings.

Brush a full even coat onto surface and allow to soak until paint starts to break down. Brush over surface to loosen deposits and scrape off the softened paint. Re-apply as necessary.
Rinse off thoroughly with clean water.
